

Contek Solutions and Infrared Imaging

Want a total package infrared provider? We can help.

Contek offers Optical Gas Imaging

- Leaks appear as smoke.
- Quickly trace leaks to their source.
- Economic benefits of increased throughput, lower labor costs, and leak prioritization.
- Safety and Environmental benefits of reduced exposure, hazard mitigation, and reduced emissions.

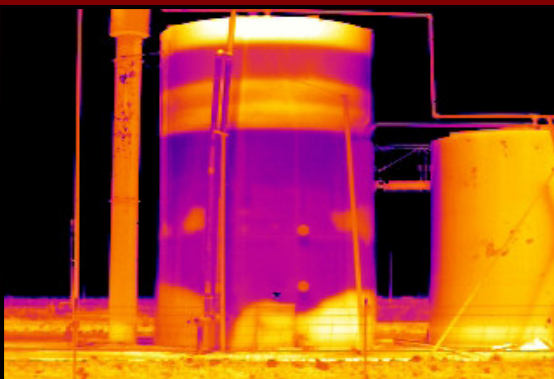

Infrared Imaging of Rotating Equipment

- Reduce downtime and maintenance costs by locating issues before equipment damage.
- No interruption of operations.
- Allows prioritizing of maintenance during scheduled down time.
- Locate problems on compressors, motors, engines, pumps, bearings, drive belts, pulleys, gear boxes, and shafts.

Infrared Imaging of Electrical Connections

- Quickly locate poor electrical connections and/or overloaded circuits.
- Locate electrical issues in hazard areas that may lead to possible fire/explosion.

Infrared Imaging of Tank Liquid/Sludge Levels

- More accurately assess inventories.
- Reduce probability of bad product.
- Prioritize tank cleaning schedules.
